PAINTER-INVENTOR

Mr. W. H. Herbert returned from Washington, D. C. Sunday night where he spent several days looking after the patenting of one of his recent inventions. He has a new idea in car springs. The other is something akin to actual motion or the thing it is. From what could be learned his inventions were not only like anything in the patent office but promised to give the world a big improvement in car springs and a vast amount of cheap power in the other.

Mr. Herbert is not only the inventor of quite a number of new devices of more or less use but as a sign painter of unusual ability as can be attested by a number of Scotland Neck's business men. His wins signs of gold show good taste and discrimination. Mr. Herbert is a Canadian by birth and speaks French fluently and has other accomplishments. Physically he is every inch a man and he is over six feet tall.

MR. AND MRS. ERNEST LEGGETT ENTERTAIN

One of the most delightful of the many pre-nuptial events of the Riddick-Whitehead wedding, was a surprise kitchen shower given by Mr. and Mrs. Ernest Leggett at their country home on last Friday evening. After a course of sandwiches and coffee, the guests were invited to hunt for pictures of various kitchen utensils which had been cleverly hidden by the hostess throughout the house. Mrs. Mammie Hoffman and Mr. Ray Boyette having been the most successful in their hunt were awarded the prize. The hostess then told the honor guests, Miss Whitehead, and Mr. Riddick, that in as much as they had not received a prize they would kindly step into the dining room where their prize awaited them. Here they found practically every article that goes into the make up of a model kitchen. A sweet course of cake and cream was then served. The guests were entertained throughout the evening by the singing of Miss Whitehead accompanied on the piano by Miss Bessie Futrell.
